James Henry's father

But the Land Grant is dated 1784

This Arthur would have been 2 yrs old

Conclusion:

The **1784 land grant was to an earlier Arthur Henry**
likely the grandfather of this Arthur; inherited the land

The Henryville House, one of the oldest houses established in this resort, has long been known as the fisherman's paradise. This house has recently been renovated and refitted. It is situated in a very beautiful spot and is surrounded by fine fishing streams. It is comfortable and homelike. A fine livery is attached.

1911

Norris and Phillippe were joined in those halcyon days by other American anglers of considerable fame. Perhaps the best-known was Chancellor Levison, whose first visit to Henryville is recorded in the register more than ten years before the Civil War. Levison was later a founding member of two organizations that have Olympian stature in American trout-fishing history; the Brooklyn Flyfishers' Club and the Anglers' Club of New York.

family spent the summer of 1848. Joe was the nation's greatest comic actor, portraying "Rip Van Winkle" on post-Civil War stages, and was fishing companion to Grover Cleveland. He wrote of Henryville House that summer: "Near by, a little river (the Brodhead) tumbled through mountain meadows and a forest cathedral with towering Pines and Hemlocks."

That self-same increasingly popular resort of sun and peace which drew Frank Forester to its meadows and woods in 1849. Forester was publisher of "Fish and Fishing" and the second angler-writer to visit this inn. Robert Barnwell Roosevelt, noted editor of "Game Fish of the North" visited Henryville House in 1862 — a time when freight wagons and canal boats were giving way to the railroad whose "iron horses" steamed into Parkside Station to debark the inn's vacationers.

That same established inn whose 1851 register contains the signature of Thaddeus Norris who wrote the "American Angler's Book" and who was the "Father of American Fly-Fishing." James Henry was proprietor in 1864 when his son, Luther, used to accompany Norris on his Brodhead fishing expeditions.

That post-Civil War resort to whose peaceful bourne General Sheridan repaired to recuperate from his battle scars. The inn and its enfolding valley so impressed General Sheridan that he dubbed the area, "Paradise Valley."

Henryville House, Henryville, Pa.

One of the prettiest spots in Pennsylvania is Henryville, Monroe county, and at the Henryville House people who come to stay a week often find themselves still there at the end of the season. Beautifully situated in the Pocono Mountains, 2000 feet above sea level, surrounded by mountains and gridironed with streams, it is, indeed, an ideal place. The streams furnish excellent trout fishing for sportsmen and the many winding bridle paths and beautiful drives are delightful. The house is well built and substantial, having been enlarged and thoroughly improved throughout this season. Spacious porches entirely surround the house, under whose shade may always be felt a refreshing breeze. People go to the Henryville House year after year and never seem to tire of the pleasures afforded by their stay. The rate is \$1.50 a day or from \$7 to \$9 a week. The view from the hotel is one of the finest in the vicinity.

Alvin Zieglers Purchase Historic Henryville House

The Henryville House, historic Monroe County resort, has been sold to Mr. and Mrs. Alvin Ziegler, of Allentown, formerly of Canadensis.

Mrs. Ziegler is a niece of J. Russell Henry, the previous owner, and represents the fifth generation of Henrys to own the property. It was first operated as a hotel by James Henry, Mrs. Ziegler's great-grandfather. The Henryville House now accommodates 250 guests.

The Henry family is well-known in hotel circles. Mr. and Mrs. John F. Henry, Mrs. Ziegler's mother and father, own the Woodside in Cresco, and the Elbiscus House and Hill Crest in St. Petersburg, Fla.

J. Russell Henry, formerly of The Henryville House, is proprietor of the West Coast Inn in St. Petersburg, and an aunt and uncle, Mr. and Mrs. Harold Angstadt, operate the Lighthouse in Henryville, across from the hotel.

During the past several seasons Mr. and Mrs. Ziegler were managers of the Healing Springs Hotel in Ashe County, N. C.

The new owners are contemplating many improvements in accommodations and recreational facilities, and will personally supervise food preparation and service. At present, they are beginning construction of a golf course adjacent to the hotel.

- Store/bar/dancehall & post office
- After '55 flood repaired the Lighthouse, then sold to Kathy Carpenter
- Eventually sold to the Henryville Fly Fishers' Club ~1990

A Memory from Sally Byrne

Taken from the Henryville House Facebook page

Aunt Lucy was the post mistress for Henryville for many years.

My Dad said folks called Aunt Lucy, "Goosey Lucy" and I guess she was somewhat wild.

My grandmother, Mable Henry Rushmore, was a serious tee-teetotaler and just ignored the fact that her baby sister ran a bar and dance hall.

I worked at the hotel in the early 60's as part of the day care staff. It was not unlike the scenes in Dirty Dancing.

There was square dancing on Tuesday and Friday nights and polka, etc. on Wednesdays and Saturdays with "Smiling Sam, the Rubber Legs man."

We danced with guests until they were tired and then entertained them with square dancing and polka's with each other.

My maiden name was Sarah Ellen ("Sally") Rushmore.

choice of accommodations

You'll find that we can please both your tastes and the number in your party at pleasingly sensible rates. Family groups of four and five often choose the spacious, heated rooms in the Lodge and West Wing. Others seem to prefer the secluded Apple Hill Cabanas, which have private tiled baths, decorator decor, and

"we love to eat, too!"

Who doesn't? And, we like to eat right here to our right here at Henryville, where personal attention and kitchen supervision by owner-management results in delicious and different menus. The bountiful meals are served in the crisply clean and colorful dining room (left). Pies and pastries, of course, are home baked.
